"In the old days," says a well known player, "when I was a member of a stock company in Chicago, we used nightly to gather in a benemian resort near the theater. One night just after the show a number of were seated at a table near the entrance when there entered to us a lean and hungry looking chap very thinly and shabbily clad.

Noticing his anxious gare, one of the party immediately divined his purpose and, anticipating the stranger, said: "Borry, old fellow, but as we our selves are playing in rather hard luck we have no money to give you for a meal and a night's ledging. We're

nearly broke ourselves. "At this the stranger emiled pleas antly. 'Permit me, gentlemen, to correct a misapprehension, said be. was not going to ask you for money. I merely wanted to know whether one of you would not lend me a sandhag so that I might go out and make a little."

-Harper's Weekly. Not Worth His Salt. When we say a man is not worth his salt," said a philologist, "we use an interesting and classic form of

speech. We go all the way back, in fact, to the time of the ancient Ro-Roman workers in the salt mines were paid in sait. The sait that they got in return for their labor was

called their salarium (mal-salt) or salt The word salarium meaning salt money or allowance for salt, later on was applied to the fees or tips men got for odd jobs. For patching my togs, the noble said, I will give that fellow a slight salarium-a bit of money to

buy sait with. "Finally, 'salarium' came to mean wages, salary, what it does today. A salary is essentially salt money, and when we say a man is not worth his salt we mean he is not worth paying wages to."-St. Louis Globe-Democrat.
